

CAREER OBJECTIVE

Motivated IT student with a passion for web development and full-stack technologies, seeking to contribute to impactful projects and grow through continuous learning and collaboration.

EDUCATION

- **Bachelor of Technology in Information Technology and Engineering - Expected: April 2026** 2022-26
Kongu Engineering College, Perundurai CGPA: 7.50
- **Higher Secondary Certificate (HSC), Grade 12th** 2021-22
Saratha Matriculation Higher Secondary School, Gobi Percentage: 77.5
- **Secondary School Leaving Certificate (SSLC), Grade 10th** 2019-20
Saratha Matriculation Higher Secondary School, Gobi Percentage: 91.4

PROJECTS

• Food Delivery Website

A full-stack food ordering and delivery platform developed to simplify the online food ordering experience.

- Enables users to browse food items, add items to cart, and place orders seamlessly.
- Integrated secure online payment system using Stripe for real-time transactions.
- Technology Used: React JS, Node JS, Express, MongoDB, Stripe.
- **GitHub:** github.com/yukesshwaran21/Food_delivery_website.git

• Movie Recommendation Website

A dynamic movie recommendation platform designed to help users explore and discover movies based on their interests.

- Allows users to search, filter, and browse movies by genre, language, and popularity.
- Users can leave comments on movies using a comment box.
- Technology Used: React JS, Node JS, MongoDB
- **GitHub:** github.com/yukesshwaran21/Movie_Recommendation_System.git

EXPERIENCE

• Web Development Internship

July 2024 – Aug 2024

Successfully completed a 30-day internship focused on front-end web projects.

Online

- Gained hands-on experience in building and optimizing web applications with React JS.
- Contributed to code quality improvements and participated in code reviews.

• Full Stack Internship

Aug 2024 – Sep 2024

Successfully completed a 30-day internship focused on full-stack projects.

Online

- Worked on building, deploying, and optimizing full-stack web applications.
- Implemented key features using JavaScript, Node.js, and MongoDB to enhance user experience.

LEADERSHIP & PERSONAL STRENGTHS

Served as **Class Representative** during the 6th semester (Even Sem), representing student concerns and coordinating with faculty.

TECHNICAL SKILLS

Programming Languages: C, Java, HTML, CSS.

Web Dev Tools: Nodejs, VS code, GitHub.

Frameworks: React.js, Node.js.

Cloud / Databases: MongoDB.

Areas of Interest: Web Design and Development, DBMS.

Soft Skills: Problem Solving, Self-learning, Presentation, Adaptability.

CERTIFICATION

Amazon Web Services (AWS) Certified Cloud Practitioner

February 15, 2025
